Capitol Hill Champion: Union Representation at the Capitol Hill TOD

The Capitol Hill Champion advocates for the incorporation of community goals in the development of the Sound Transit surplus properties surrounding the light rail station on Broadway. Those goals were identified through a years-long community process, and they continue to guide our work as we enter the design phase of the development.

Because the Champion advocates on behalf of the community as a whole, we do not take a stand on issues that deeply divide the community we represent. Instead, we facilitate conversations among concerned parties. Therefore, **the Champion remains neutral on the issue of union representation as a factor in the selection of a grocer for the development.** We've helped to facilitate conversations between unions and other interested parties with Gerding Edlen, the developer of the site.

Sincerely,

The Capitol Hill Champion Steering Committee
